

## **Client-centred questions to ask a pupil who has driven previously**

- Tell me about your previous driving experience...
- How many driving lessons have you had before?
- When was the last time you drove?
- Why did you decide to change driving instructors?
- Let's have a look at the driving syllabus. Tell me what you have already practiced, and what you haven't yet practiced.....
- Can you think of anything where you don't feel too confident?
- What would you like to improve?
- What would you like to practice on today's lesson?
- Ideally, what would you like to achieve on today's lesson?
- What would you like me to help you with on today's lesson?
- What would you like to get from today's lesson?
- On today's lesson if I can help you improve one thing about your driving what would it be?
- What concerns do you have about your driving?

Note: you don't need to ask every question. Just pick a few of these questions to help explore what the pupil wants to achieve on today's lesson
